

NOVA FCSH Research Support Office

9 June 2021 | from 9h30 to 12h30, Lisbon time

Open to all researchers

Online event, via Zoom

(link and password provided after registration)

June 9 will be a day fully dedicated to you: future candidate or supervisor for Marie-Curie Postdoctoral Fellows. In this online event you will be able to:

- Acknowledge the main rules and main changes of the call
- Talk with Marie-Curie Fellows and evaluators that will help you to improve your application
- Get to know NOVA and NOVA FCSH in more detail and chat with the Research Unit staff/responsible that will host your project.

Get to know in detail the sessions in the agenda. Register [here](#) until the **4th of June**, indicating the Research Unit that you would like to host your project.

NOVA FCSH has a successful track record hosting several Marie-Curie fellows over the past few years. Our experience shows that a key success factor in applications is the candidate's ability to show his/her previous knowledge of the host institution and also the integration of his/her research project with the host institution strategy. If you plan to apply for the Marie Curie Postdoctoral Fellowships in October, don't miss the Marie-Curie PF @ NOVA FCSH Open Day.

Agenda

09h30-10h00 **Introduction to Marie-Curie postdoctoral Fellowships**

Q&As

David Marçal, PERIN

10h00 - 10h45 **Marie-Curie IF testimonials**
